ICMAT2015 Speaker Invitation

Jan 2015

The Materials Research Society of Singapore will organize the 8th International Conference on Materials for Advanced Technologies (ICMAT) from 28 June to 3 July, 2015 in Singapore. ICMAT series conference has been held every two years since 2001 gathering over two thousand participants, each time, from all over the world.

We are delighted that one symposium under ICMAT2015 is dedicated to catalysis, entitled "Novel Materials in Heterogeneous Catalysis". The emergence over the last decade of synthesis, modeling and characterization of materials at the atomic scale is having an unprecedented impact in the field of catalysis, and this symposium aims to generate exciting discussions about the advances and challenges in the catalytic applications of novel catalytic materials, including, but not limited to, catalysts at nano and sub-nano dimensions, single site heterogeneous catalysts and porous materials as catalysts.

On behalf of the organizing committee, and as the symposium chair, we cordially invite you to the conference and deliver an **Invited Opening Lecture** at the symposium. Your invited lecture must be of great benefit for the participants. In sincere appreciation of your invaluable contribution to ICMAT2015, please accept

- **ICMAT2015 Conference Registration Fully Waived (800 S\$)**
- **One Complimentary Dinner Invitation** to the ICMAT2015 Conference Banquet

We will be grateful for your kind acceptance of this invitation immediately or before
01 July, 2014. Thank you.

Chairman, ICMAT2015
