**The 8th Joint Meeting of Chinese Physicists Worldwide (OCPA8)
23 to 27 June 2014, Singapore**

Re: Invitation to speak in the Joint Biophysics/Chemical Physics Symposium

Dear Prof. Wei Zhuang:

The Overseas Chinese Physics Association was originally formed in 1990 to promote physics and astronomy research among ethnic Chinese physicists and astronomers in the United States. Over the years, the original charter of the OCPA has been modified to incorporate all ethnic Chinese physicists around the world, including non-Chinese physicists who support the activities. The next OCPA biannual conference (OCPA8) will be held in Singapore from June 23-27, 2014. Singapore is a melting pot of East and West cultures and we hope that the venue will provide an excellent platform for enhancing research collaborations among physicists worldwide.

On behalf of the organizing committee, we would like to invite you to present a talk in the joint Biophysics-Chemical Physics Symposium in OCPA8. Your invited talk will be 20 minutes (15+5 min) in length. At this time, we regret that we are unable to provide any financial assistance toward registration and travel. Should there be any financial assistance available in the near future, we will let the invited speakers know.

Please note that for this forthcoming OCPA conference, we are placing special emphasis on the poster presentations. There will be special prizes awarded jointly by OCPA and APS for the best posters. We would therefore appreciate if you could encourage your colleagues to participate in our poster sessions.

Please let us know if you could accept this invitation and attend OCPA8 at your earliest convenience. We greatly appreciate your consideration and look forward to seeing you in this exciting conference.

Sincerely,
