التاريخ

Prof. ZHANG Tao Director-General Dalian Institute of Chemical Physics

Dear Prof. Tao,

Subject: Letter of Invitation to visit KISR

On the behalf of Kuwait Institute for Scientific Research (KISR), I am pleased to invite you and other two CAS experts respectively in the areas of petroleum refining (catalysis), environmental protection and solar energy, and a part of Chinese Academy of Sciences (CAS) delegation members to visit our institute in December 2014.

During our visit to CAS in June16-18, 2014, we had several excellent meetings with some of you and your colleagues, and had signed the MOU between KISR and CAS. This invitation for CAS delegation to visit KISR aims at further exchanging ideas on potential cooperation areas and implementing the signed MOU. I am looking forward to further understanding between KISR experts and CAS experts through your visit and a successful cooperation with your institute/center, CAS.

Yours Sincerely,

Naji Al-Mutairi Director General
