Santiago, May 11, 2014

Professor Dong Hui Zhang
Dalian Institute of Chemical Physics,
Chinese Academy of Sciences,
People's Republic of China.

Dear Professor Zhang,

The 10th International Congress of the World Association of Theoretical and Computational Chemists, WATOC 2014, devoted to theoretical and computational chemistry and its application to a wide range of fields in chemistry physics and biology will be held in Santiago of Chile, 5-10 October 2014. WATOC 2014 is an interdisciplinary conference to promote scientific exchange and discussion on electronic structure theory and computational tools in chemical, physical and biological processes.

As one of the most important leaders in molecular reaction dynamics, we would be delighted if you can participate in this important meeting. So on behalf of the organizing committee, I have great pleasure in inviting you to present an invited conference at WATOC 2014. Unfortunately, because of budget constraints, we are not able to contribute to the travel, accommodation or registration expenses of any of the lecturers.

I very much hope that you will be able to accept this invitation, if you can do so, please send us a note as soon as possible. A tentative title and abstract of your contribution would be necessary before May 30, 2014.

We are hoping to see you in Santiago, next October. With best regards,

Professor Alejandro Toro-Labbé
Chairman, WATOC 2014
