To Whom It May Concern

**Invitation to participate at the 41st International Conference on Coordination Chemistry (ICCC-41),
21 – 25 July 2014, Singapore**

On behalf of the organising committee, I cordially invite **Dr. Yong Wang**, to participate at the 41st International Conference on Coordination Chemistry (ICCC-41), scheduled to be held from 21 - 25 July 2014 in Singapore.
(<http://www.iccc41.org/>)

Started in 1950, the ICCC is the most established international conference in the field of coordination chemistry. It provides the major forum to discuss the latest developments in a major area of chemistry and fosters collaboration between coordination chemists and other scientists.

The ICCC-41 organizing committee hopes that through the conference, we can showcase the latest in innovations, opportunities and possibilities; help foster new collaborations and inject new science to an area of traditional strengths.

As a non-profit organization, the organizer does not have the financial resources to fund travel expenses nor waive the registration fee. As such, presenters are expected to make payment for their registration fee and participate at their own expense or secure their own funding to attend the conference.

Dr. Yong Wang is also the author of the following abstract(s) accepted for presentation at the conference:

Title: The Magic Power of Acid Additive in Nonheme Chemistry
Author(s): Wang, Yong
Presenting Author: Wang, Yong
Status: Invited talk.

We hope Dr. Yong Wang will be able to join us at ICCC-41.

Thank you!

Yours sincerely,

Andy Hor (Prof)
Conference Chair
ICCC-41 Organising Committee
