邀请单位介绍:

The Spanish Hydrogen Association, started in 2002, is a non-profit organization which main objective is to promote the technological development of the hydrogen energy and its use in industrial and commercial applications, for the whole society interest, to avoid the environmental impact and enhance the industrial improvement foreseen.

The main objective of the Spanish Hydrogen Association (AeH2) is to promote the development of hydrogen technologies as an energy vector and promote their use in industrial and commercial applications. Society at large is intended to be the main beneficiary of the association's achievements, and not the members themselves. This refers to both environmental benefits as well as the long-term boost to industry that is expected.

INVITATION

Dear Dr. Jiafeng Yu,

On behalf of the Scientific Committee of the European Hydrogen Energy Conference 2014, it is my great pleasure to invite you to attend to the EHEC 2014, which will be held on 12 -14 March 2014 in Seville, Spain, to present your accepted paper "The Unique Role of CaO in Stabilizing the Pt/Al2O3 Catalyst for the Dehydrogenation of Cyclohexane". The EHEC2014 will provide you an excellent opportunity to participate in professional activities, to discover the latest research results throughout the world, and to exchange views or experience with the most active experts in the hydrogen and fuel cell sector.

You are welcome in Seville to join us at the European Hydrogen Energy Conference 2014.

For more detailed information, you can visit the website of the Conference:
