Dear Dr. Li,

The American Chemical Society (ACS) 2014 Fall Meeting is to be held during Aug. 10-14, 2014 in San Francisco, California. As an organizer of the “Applications of Theoretical Chemistry for Energy and Fuel Production” Symposium in this meeting, **I invite you to give an invited talk on theoretical catalysis.** As you may know, ACS meetings are among the most prestigious international meetings for communicating the most recent advances in the chemical research. As a world leader in theoretical catalysis, your participation will greatly enhance the quality of our symposium and help attract other researchers to our program.

As a visa is required for Chinese citizens to enter the US and it may take time to obtain one, please begin your visa application as soon as possible. This invitation letter explains your need of entry into the US. If you need more help, please don't hesitate to contact me or ACS; for more info, please go to <http://portal.acs.org/portal/PublicWebSite/global/international/traveltous/index.htm>.

Look forward to seeing you in San Francisco in August.

Sincerely,

De-en Jiang, Ph.D.
